Nutrition App Project

Directions: You will search and find **two** apps that can be used to help manage nutrition. After finding the apps that help manage nutrition, you will answer the worksheet below, compare the two, and create a display summarizing/advertising your app and its benefits.

App #1:

1. What is the name of your chosen app?

2. What does the app look like? (include a picture)

3. How does this app help help with nutrition? (Include 3 ways)

4. Answer the following question in at least 3 sentences.

If you downloaded the app, what are your personal thoughts about it? If you did not download the app, read the reviews and ratings to find other people's opinions of the app. What did the reviews/ratings say about the app?

App #2:

5. What is the name of your chosen app?

6. What does the app look like? (include a picture)

7. How does this app help with nutrition? (Include 3 ways)

8. Answer the following question in at least 3 sentences.

If you downloaded the app, what are your personal thoughts about it? If you did not download the app, read the reviews and ratings to find other people's opinions of the app. What did the reviews/ratings say about the app?

Now compare the two:
